

## **What can Stinsford Parish contribute to tackling Climate Change?**

**Thursday 2<sup>nd</sup> February 2023 – 7pm – The Stinsford Centre, Kingston Maurward**

Kingston Maurward College aims to reach net zero by 2025.

Dorset Council have set a date of 2040 to achieve net zero.

What should Stinsford Parish Council be doing? Are we ready to deal with the impacts, with heatwaves, torrential rain and secondary implications such as wildfires and ecological change?

Please join us to discuss these issues at the Stinsford Centre, the new eco-friendly university hub building at Kingston Maurward College. Representatives from the College will also give a talk on their approach to these issues and what they have achieved so far and explore the new building.
